

FOR IMMEDIATE RELEASE

Learn the rules of the European Waterways with iCENVI

May 12 2015 – Learning the rules of the European Waterways has never been so easy with the ground-breaking [iCENVI app](#) for iPhones, iPads and iPods.

Created by the seafaring experts at [Norden Logic](#), iCENVI was developed to help boaters learn the strict rules of the European Waterways in order to pass the mandatory CENVI exam.

Presenting over 300 rules of the official CENVI Release 4 document in an easy-to-read format, iCENVI makes learning easy by joining graphics and official rule text to help users visualise situations.

The only mobile application to feature high-quality photos of the waterways governed by CENVI, [iCENVI](#) allows users to zoom in and investigate each lock - including relevant signs, markings and lights – to enable students, enthusiasts and boating experts of all levels to learn every single detail about each location.

Thrilled about the unveiling of this innovative app, a Norden Logic spokesperson said “The iCENVI development team is excited to release this product to the boating community allowing everyone to have the rules in their pocket!”

Available from the iTunes store for €4.99 in English, the [iCENVI app](#) is compatible with all iPhone, iPad and iPod Touch devices running iOS 7.1 or above.

Download iCENVI today for an educational Inland Waterways boating experience.

Notes to Editors
